Upholster your favourite furniture, as good as new!

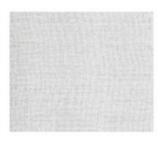

Some of easiest benefits of refurbishment are being able to customize color. Its also cost effective in some way, instead of buying new furniture. Its definitely eco friendly. You can sustain the sentimental value of your furniture. You can also increase the longevity of your favourite furniture.

So whats the process?

Its easy. A N A craftsman will assess the condition of your furniture. After assessment, we will advise fabric selection. Once that is done. We will either on site or in our factory, take your furniture for stripping and re-padding and webbing.
